THE PLAIMS, Fauquier Co.. Vs.,
February 8th, 1873.

Mr. C. P. Knight—Sir—The paint came safely to hand as ordered, two kegs, five gallons each, and three buckets one galuon each. As practice is slack, I did the job myself. Two weeks not constant work completed the house two coats, the last cost applied thick, and it is now generally conceded that for "Enamc!" like hardness be and body and harmony of colors there is not a handsomer job in the place. I saved sixty-five it dollars by the operation, which is an item just now with "Southern People." It should be generally adopted in this State; any country lad can apply it. I have never dabbled in ruch stock as Testimonials, but I feel so forcibly the great adaptability of your Ename! Paint to the wants of our people in excellency of material, in beauty of color, and the fact of its being ready-mixed, that I give you fail permission, if it is desirable, to make what use you think proper of this letter.
